Owl Class - Spring Term 2018

Happy New Year!

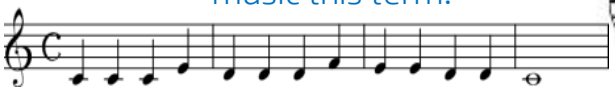
This term the theme of **Changes** will be evident in our science and geography work. The children will explore how landscapes change from the mountains, along rivers and into the sea. In science they will learn about how solids change into liquids and then into gases as they are exposed to heat and back again once cooled. Later in the term we will learn about animals and their habitats and will use our design skills to make our own animal homes.

Computing

Our computing work will initially be focussed on the safely and effectively using the internet to search for information. We will use these skills across the curriculum. In the second half term we will learn about spreadsheets and use them to make games that support our learning in maths.

Music

After learning the basics of notation, we will compose and play our own music this term.



Art

We will study some artists that have experimented with colour and then try our hand at some experimantation of our own.

RE

This term we will learn about similarities and differences in faiths. We will compare aspects of Judaism, Islam and Christianity.

PE

We will develop our gymnastic skills and once the weather has improved head outside to play invasion games.

Outdoor Learning

This term we are not going to let the weather stop us! We will head outside to make our learning more practical across the curriculum. In the first few weeks of the term we will be completeing maths, geography and english work.
